

Dear Investors,

The Therapeutic Discovery Project Program application set forth by INVO Bioscience has been denied. There is no appeal process.

The project gave out a maximum grant award or tax credit in the amount of \$244,479.24. This amount is much less than the potential of up to \$5 million previously stated by the program. This amount would not have been sufficient for the start of the FDA clinical trial. We applied for a \$1.2 million dollar grant.

Below is a list of the company's that received grants or tax credits and how much they received.

<http://www.irs.gov/businesses/small/article/0,,id=229024,00.html>

We are still very actively exploring a number of avenues toward acquiring funding and starting the FDA process. While \$244,479.24 would have been welcomed, INVO has planned moving forward without this money and has a positive outlook going forward.

Sincerely,

INVO Bioscience Team
